The perfect casebook for the modern Contracts course. This highly-focused, case-based text offers a comprehensive treatment of the basic issues of contract law and emphasizes development of analogical reasoning skills. Each section is limited to three types of materials (brief narrative, judicial opinions, and discussion problems) and is designed to teach students how to read opinions, analyze issues, distinguish material from immaterial facts, and apply holdings to similar problems. New to the Third Edition: New discussion problems have been added throughout the book to better enable the students to apply the material learned from the principle cases to new factual situations and then learn how judges have dealt with those situations. New narrative material, cases, and discussion problems have been added on the topic of contract interpretation, the most common source of contract law disputes. Professors and student will benefit from: Lean, focused text with a

2-color design that can be taught, cover-to-cover, in a one-semester course Sections that are limited to three types of materials (brief narrative, judicial opinions, and discussion problems), which best promote the teaching and learning of the method of legal reasoning Both classic and contemporary cases are edited to include sufficient background and reasoning for students to analyze the court's decision Discussion problems present summarized facts from real cases Preparing for Practice is a fresh approach to the 1L first semester legal writing and research course, designed to guide students through their development of the essential skills needed to master the MPT section of the bar exam and learn legal analysis and writing from a practice perspective. The coursebook combines practice-oriented case files with theoretical content, eliminating the need for professors to create their own case files. The purchase of this ebook edition does not entitle you to receive access to the Connected eBook on CasebookConnect. You will need to purchase a new print book to get access to the full experience including: lifetime access to the online ebook with highlight, annotation, and search capabilities, plus an outline tool and other helpful resources. Described as "superb" and "inspiring" by Dean Erwin Chemerinsky, Civil Rights Enforcement dives deeply into doctrines concerning the enforcement of civil rights (rather than the content of those rights) and the aspects of those doctrines of most importance to those litigating in the field. The book is organized as a litigator might think through a case, and it provides students rich, detailed hypothetical problems to which they

can apply what they are learning. Alongside these practice-focused elements, the book's notes, questions, and topic transitions push students to grapple both with (1) strategic questions about impact litigation and the role of civil rights litigation in constitutional enforcement, and (2) theoretical questions such as tradeoffs between the values of federalism and judicial review and the relationship between rights and remedies. Highlights of the First Edition: Detailed hypothetical problems with multi-layered fact patterns, including hypothetical statutes, precedents, and litigation documents based on actual cases Application notes focusing on how civil rights enforcement doctrines work in practice, prominent appeals court decisions, and areas of current controversy among courts of appeals A prologue (and follow-up notes throughout the book) grounding the material in the history of the civil rights movement and raising strategic questions about the practice of impact litigation Commentary and questions that situate the doctrines studied both within their historical context and within broader theoretical debates about the proper role of the federal courts and the gap between rights and remedies Several chapters that cover statutory civil rights enforcement and compare and contrast constitutional and statutory civil rights enforcement Professors and students will benefit from: Organization of the material in the manner a litigator would think through a potential case and a focus on doctrines and issues most relevant to practice Rigorous case editing to highlight the key questions for study and avoid unnecessarily long and sprawling excerpts Notes-and-questions sections structured to

proceed from the simplest questions to those challenging students to consider critiques of the doctrine, various justices' interpretative choices and methodologies, the incentives created for plaintiffs and defendants, and the relationship to other topics covered. Consideration of the real-world implications of the doctrines studied, including frank discussions of race, sexual harassment, and institutional culture. Charts and illustrations for a few of the more complex doctrines. Consistent focus on doctrines of rights enforcement (as opposed to the content of various rights)—providing the book with a unifying theme and marking out a field of study distinct from Constitutional Law, Criminal Procedure, and Employment Discrimination. Buy a new version of this textbook and receive access to the Connected eBook with Study Center on CasebookConnect, including: lifetime access to the online ebook with highlight, annotation, and search capabilities; practice questions from your favorite study aids; an outline tool and other helpful resources. Connected eBooks provide what you need most to be successful in your law school classes. Twenty-First Century Civil Procedure, Third Edition presents the major themes of U.S. civil litigation—the adversary system, our dedication to the use of juries in civil cases, our American brand of federalism and its impact on the judicial system and litigation generally, and the relatively recent development of managerial judging—for an introductory course on civil procedure. With its contemporary perspective, Twenty-First Century Civil Procedure includes discussion of modern problems, such as e-discovery and the requirement of careful

scrutiny during the certification stage of class suits. The skillful pedagogy evident throughout the book is designed to provide context for the understanding of doctrines and issues, and to stimulate classroom discussion. Expository text introduces students to the issues, followed by carefully edited cases that resolve some of the more important issues, practical Problems, and Notes and Questions that aid the process of analysis. Pictures and sidebars provide additional context and pique student interest. A statutory supplement is published annually. New to the Third Edition: New cases—including *Bristol-Myers Squibb Co. v. Superior Court of California*; *Ford Motor Co. v. Montana Eighth Judicial District Court*; and *Ford Motor Co. v. Bandemer Streamlined*—the Third Edition is approximately 10% shorter Professors and students will benefit from: Ample expository text introducing doctrines and issues in context Exploration of major themes in civil litigation, including the adversary system, use of juries, the federal structure of our judicial system, and the advent of managerial judging Comprehensive treatment of federalism, including Erie doctrine, pre-emption, abstention, and anti-suit injunctions Examination of jury entitlement without all the length and inconclusive that add complexity and obscurity to the subject Detailed coverage of post-verdict challenges (new trial and JMAL motions, additur and remittitur) After your casebook, a Casenote Legal Brief is your most important reference source for the entire semester. Expert case studies and analyses and quicknote definitions of legal terms help you prepare for class discussion. Here is why you need Casenote Legal Briefs to help

you understand cases in your most difficult courses: Each Casenote includes expert case summaries, which include the black letter law, facts, majority opinion, concurrences, and dissents, as well as analysis of the case. There is a Casenote for you! With dozens of Casenote Legal Briefs, you can find the Casenote to work with your assigned casebook and give you the extra understanding of all cases Casenotes in 1L subjects include a Quick Course Outline to help you understand the relationships between course topics. Domestic Violence: Legal and Social Reality, Second Edition is a domestic violence casebook featuring cases, statutes, notes, interdisciplinary materials, narratives, and problems. The text is illuminated by a particular sensitivity to the victim's perspective as well as to issues of race, ethnicity, social class, and sexual orientation. New to the Second Edition: Most up-to-date treatment, including coverage of pending Violence Against Women Act (VAWA) Reauthorization Act of 2018, federal guidance on campus sexual assault, reversal of federal policy on asylum, and national screening recommendations Inclusion of new cases addressing same-sex intimate partner violence, federal firearms laws, tribal law, lethality assessment, and cyberstalking Coverage of cutting-edge issues of revenge porn and role of domestic violence in mass shootings New developments in child custody law, including the "safety-first" paradigm Professors and students will benefit from: Materials reflecting the social reality of intimate partner violence through human-interest narratives that complement the cases Integration of interdisciplinary perspectives, including excerpts,

notes, and questions emanating from history, literature, psychology, sociology, social work, criminology, and medicine

Analyses of current social science research to enhance student understanding

Focus on cutting-edge areas of law and often-ignored issues

Coverage of the full range of types of abuse

Presentation of a variety of problem exercises derived from actual cases and current events

Easy adaptation to shorter or longer courses

Contracts: A Modern Coursebook, Second Edition by Ben Templin is an innovative coursebook unlike any other on the market. The book takes a hybrid approach between a “traditional” casebook and a problems-based casebook, incorporating a more thorough discussion of the law followed by cases then problems. Featuring a unique design that engages the reader and incorporates professional skills and experiential-type learning, Contracts: A Modern Coursebook is a revolutionary, classroom-tested book. Rather than playing “hide the ball,” professors using this book will be able to say, “Here’s the ball. Let’s play catch.”

New to the Second Edition: Now Over 500 Questions and Problems, nearly doubling the number of questions and answers for professors to use to assess students. A new section—Questions for Review—tests students’ understanding of the law before they try the more difficult analytic problems. Enhanced analytic problems—updated based on feedback from professors and students

New cases with tighter editing to adjust the mix between classic and contemporary cases for greater balance, and to focus on the core lesson

More flowcharts and tables, providing additional visual learning aids to help students synthesize concepts

More examples and case illustrations to keep students engaged and to stimulate critical thinking Design enhancements, including a redesign of “Rule Boxes” that makes parsing the rule statements easier for students A new numbering system to more easily track “Learning Outcomes” to “Explanations” to “Case Law” to “Assessments” Professors and students will benefit from: Learning Objectives: Unlike traditional casebooks, every chapter begins with three to seven precise learning goals. Millennials respond positively when learning objectives are stated at the beginning of a lesson. The defined learning objectives for each chapter help professors comply with ABA requirements to establish learning outcomes that consist of “clear and concise statements of knowledge that students are expected to acquire.” Clear and Concise Explanations of the Law: Much like a hornbook, every chapter provides clear and concise explanations of the law. Overarching rules are identified and highlighted visually. An analytical framework is provided to help students parse the rule. Examples and Case Illustrations explain the parameters and application of the rule. Test Yourself questions are embedded exercises within the explanation section to let students assess their understanding of the rules. Case Law—Developing Critical Reasoning Skills: Since students learn the law before reading the cases, the focus of case analysis is on the reasoning that the court applies. By posing direct questions and giving students prompts to respond to as they read the case, students build critical reasoning skills, and, as a result, are better prepared for class. Problem Solving and Analysis—Built-in Formative

Assessment: At the end of each chapter, the Problem Solving and Analysis section provides students the opportunity to build critical thinking skills (the highest level of Bloom's Taxonomy of Educational Objectives) through a series of thought-provoking hypotheticals based on real-world scenarios. The rich set of questions builds accountability and addresses the challenge of providing in-semester formative feedback to large classes to help professors comply with ABA formative assessment standards. **Contemporary Layout and Design:** The contemporary book design is optimized to improve readability, heighten student engagement, and increase retention. **Concise and Compact:** Shorter than competing casebooks, the casebook can be used in 4-credit, 5-credit, or 6-credit courses. **Classroom Tested:** **Contracts: A Modern Coursebook** has been classroom tested over three years. More than 400 students have used the text for both the first year contracts course and as a supplement for a third year remedies course. Students have been overwhelmingly enthusiastic about the content, format, and approach. The purchase of this Kindle edition does not entitle you to receive access to the online e-book, practice questions from your favorite study aids, and outline tool available through CasebookConnect. With dynamic learning features and visual aids, the Inside Series helps you make the most of your study time, throughout the semester and as you prepare for the final. Unlike heavily abridged treatises, the Inside Series is carefully written in a concise, straightforward style that clearly identifies the essential components of the law and how they fit together. You can quickly

learn what is important and why. Overviews and Tables of Contents in each chapter act as a roadmap to guide you through topics, showing you how each relates to the larger legal framework. FAQs clarify points of law and help you avoid common mistakes and misconceptions. Sidebars give fascinating additional detail from legal history, policy, famous cases and more. The graphic design supports your visual learning, and features such as bolded key terms, summaries, and Connections help reinforce your understanding while giving you ample opportunity for self-review. Surprisingly concise, visually compelling, the Inside Series is extremely useful throughout the semester to help you identify the essential components of the law and how they fit together. Comprehensive coverage of the essential topics emphasizes what you need to know and why. Clear, straightforward, informal writing explains every topic for you without over-simplifying the concepts. Overviews and Tables of Contents in each chapter act as a roadmap to guide you through topics, showing you why each matters and how it fits into the larger framework of the law. FAQs clarify points of law and help you avoid common mistakes and misconceptions. Sidebars enrich the text with fascinating detail from legal history, policy, famous cases and more. Bolded key terms, Connections and summaries reinforce your understanding and give you ample opportunity for self-review. The overall graphical design of the series supports your visual learning. Of all the first-year courses, property is often the one most dreaded by law students. The goal of Defining and Acquiring Interests in Property is to make the course less intimidating and

more enjoyable and engage students by providing an exciting learning experience. In order to increase student engagement with this challenging material, the book encourages students to approach property law with an open mind and to recognize some things are very different from what they appear. The book focus on a few key goals: Providing students with a new definition of property that encourages them to think of “property” in a different light
Outlining and describing the various forms of property interests that the law creates
Describing the impact these property interests have on others
Discussing the impact other laws and interests of society have on the property interests
Describing the means of acquiring these property interests
New to the Third Edition: Updated Texas Property Code provisions for landlord tenant security deposits
New cases for covenants in the landlord tenant assignment/sublease context
New cases for notice of covenants and defining the forms of notice
New covenant of quiet enjoyment hypo involving protestors/trespassers at leased pasture land
Updated case for implied easement by necessity notes for scope of easements
Updated seller’s disclosure statute
New case on the shelter rule with recording statutes and priority
New bona fide purchaser/good faith creditor case and notes
"Law school coursebook for courses on Appellate Advocacy or Advanced Legal Writing"-- "Law school casebook covering fundamentals of business organizations"-- Unlike other casebooks that typically seek to tackle the entirety of Constitutional Law and are organized from the perspective of the constitutional scholar—a top-down approach that encompasses

(and even emphasizes) theoretical and philosophical perspectives and debates—Modern Constitutional Law: Cases, Problems and Practice focuses on key areas of constitutional law and is organized from the ground-up. Rather than assuming students will one day be making constitutional arguments before the U.S. Supreme Court (or teaching Constitutional Law), this book assumes students will more likely be making constitutional arguments before a state or federal trial court. And so it focuses on those areas of Constitutional Law that are likely to be relevant to the practice areas in which most law students will work after law school—small or solo firms that count individuals and small businesses as their clientele, or the offices of state agencies, district attorneys, or public defenders. New to the Second Edition: Updated with key First Amendment cases through the 2017–2018 Supreme Court term, including *Expressions Hair Design v. Schneiderman* and *Masterpiece Cakeshop v. Colorado Civil Rights Commission* Includes commentary on controversial cases from the 2017–2018 Supreme Court term, including *Trump v. Hawaii* Existing cases have been further edited to preserve the scope of the book while reducing its size Additional supplemental cases are added to the online Professor Resources to allow professors to add coverage of most areas of constitutional law Professors and students will benefit from: Narrower scope than other casebooks, the book is more manageable for 3- and 4- credit courses A focus on doctrine rather than theory Emphasis on modern and contemporary cases rather than historical ones (although landmark cases, such as *McCulloch v. Maryland*,

The Prize Cases, and *Lochner v. New York*, to name a few, are also included) Coverage that focuses on the issues most relevant to the types of practice students will enter upon graduation, such as due process, equal protection, and First Amendment Inclusion of cases from the lower federal and state courts, courts in which most students are most likely to one day find themselves litigating constitutional issues Inclusion of a generous number of case excerpts to help students develop their ability to read legal texts closely and extract useful information, rather than, like many casebooks, relying on numerous Notes to cover the jurisprudence in a particular area Each chapter includes one or more Problems to provide students opportunities to apply the doctrines learned Each chapter includes one or more “Practice Perspectives” that present the facts, background, and resolution of actual constitutional law cases, challenging students to explain the results based on what they have learned in the chapter Experienced authors with over 45 years combined teaching and working in the field use fundamental principles and sources to instruct and guide discussion about the application of the law of armed conflict to contemporary and future questions. Students can gain a solid foundation in the law and develop the tools they need to analyze complex legal problems. International Law and Armed Conflict shows how the law informs operational and policy decision-making. Placing the law of armed conflict in context with related fields, such as human rights law and national security law, the text provides a complete framework for understanding legal paradigms during and after conflict. Innovative

materials allow flexibility across a range of class scenarios, from a stand-alone course to part of a broader survey class. New to the Second Edition: New technologies and the law of armed conflict, including cyber, unmanned aerial vehicles and autonomous weapons systems The conflict in Syria, including ISIS, genocide and chemical weapons attacks Humanitarian assistance and the challenges of protecting the civilian population in urban conflicts Contemporary debates regarding detention in non-international armed conflict, human rights law, and targeted killing Professors and students will benefit from: Experienced authors with over 45 years combined teaching and working in the law of armed conflict field in the military, at think tanks, and in academia Use of the fundamental principles and sources of the law to inform discussions and questions about contemporary and future questions An approach that gives students a solid foundation in the law and the analytical tools they need to analyze complex legal situations and problems and to understand how the law informs and impacts operational and policy decision-making Context that ties together the law of armed conflict with other related fields, such as human rights law and national security law, to provide a complete framework for understanding the legal paradigm applicable during and after conflict Teaching materials include: Substantive and innovative tools and materials to teach this topic as a stand-alone class or as part of a broader class on a range of related topics A Teacher's manual with additional sources, discussion points, and key background information, all designed for maximum use and

flexibility in a range of class scenarios This innovative casebook, written by an outstanding team of Civil Procedure scholars and teachers, is more informative, transparent, and accessible than a typical casebook. For example, Civil Procedure provides an introduction to each case to help students understand the context for the opinion and to flag important issues to look for while reading the case. After each case, the book provides textual materials and questions, but, unconventionally, the book answers almost all of the questions that are posed. The book has short chapters of manageable scope and uses a different font and a shaded border for the text of opinions. The book also includes multiple choice questions to test students understanding of new concepts followed by an analysis. Each chapter ends with a summary of key concepts. The book also has a companion website and a Rules Supplement. This casebook aims to be approachable and accessible for students and professors alike. Characteristics that take it out of the realm of typical casebooks include: Different treatment of cases Cases are selected to clarify and convey basic concepts Brief, accessible introductions precede the cases and help students understand the opinions and guide them to the important issues Author-written textual materials and questions with answers follow the cases, facilitating students understanding of the issues and allowing professors to focus class time on sophisticated material Different pedagogy Shorter chapters make the material more manageable Materials are organized with students and ease of study in mind: each chapter begins with a mini-table of contents and ends with a summary of the

fundamental points covered in that chapter Questions are presented in various formats, including multiple choice questions and issue analyses Students are carefully walked through the thought processes involved in answering the questions Different design A different look signals and supports the innovations Interior design differentiates the various elements of the book, such as author-written text, case and statutory material, and pedagogy Use of visuals such as charts and photos Understanding Criminal Evidence is a carefully designed undergraduate text featuring a case-method approach and focused solely on criminal evidence. Learning the rules from case analysis allows students to apply the material to real world situations, fostering an understanding of the Rules of Evidence. Solid pedagogy makes the material more accessible than a traditional law school casebook text and features end-of-chapter review questions and key terms. Each chapter has a major introductory case that highlights the evidentiary issues. Several sub-cases in chap every chapter illustrate the ramifications of the rules. Trial transcripts and real world problems help students apply the rules to real situations they may face in practice. Features: Case-method approach to criminal evidence Case analysis methodology students apply the rules to the real world and to real life Features a traditional approach material designed specifically for undergraduates focused solely on criminal evidence Sound pedagogy end-of-chapter review questions key terms material more accessible than a traditional law school casebooks Cases in each chapter one major introductory case highlighting evidentiary issues

several sub-cases illustrating ramifications of the rules Trial transcripts and real world problems help students apply the rules A highly flexible casebook focusing on core concepts and central controversies in evidence law. With well-selected and tightly edited cases, this casebook offers thoroughly up-to-date coverage of technical and jurisprudential developments in scientific proof. Specifically, the fourth edition contains a dozen new cases while also dropping older material made redundant by the additions. The author has replaced the Supreme Court's confrontation decisions in *Davis v. Washington* and *Michigan v. Bryant* with the Court's 2015 decision in *Clark v. Ohio*. The Court's 2012 decision in *Williams v. Illinois*, regarding confrontation and expert witnesses, has replaced *State v. Lewis*. And *Warger v. Shauers*, the Court's 2014 decision applying Federal Rule of Evidence 606(b), has pushed aside *Tanner v. United States* and *People v. Fleiss*. An effective teaching and learning text, *Basic Labor and Employment Law for Paralegals* covers all the essential elements in depth and breadth in a rational three part structure. "Introduction to Labor and Employment Law" examines the historical development of labor and employment law in America alongside the nature of the employment relationship. "Labor-Management Relations in the Union Setting" shows how American labor law regulates labor-management relations and includes methods of selecting collective bargaining representatives, unfair labor practices by employers and unions, economic weapons in labor disputes and the formation and administration of labor contracts.

"Employment Discrimination" deals with the various forms of discrimination and the methods and procedures of pursuing employment discrimination claims. To underscore concepts and ensure student understanding, each chapter features marginal definitions, fact scenarios illustrating the concepts, and questions about specific facts for the students to consider. Answers to the fact scenarios are included at the end of each chapter. Discussion questions and exercises are provided to help students apply the concepts, and engaging case excerpts give them experience with case analysis. The Second Edition has been completely updated to include new material analyzing the Lilly Ledbetter Fair Pay Act of 2009, a federal statute amending the Civil Rights Act of 1964. Additional new material discusses the Genetic Information Nondiscrimination Act, a federal statute prohibiting employment discrimination on the basis of genetic information. Fresh case references and examples appear throughout the text.

Hallmark features of Basic Labor and Employment Law for Paralegals: Covers all essential elements of United States labor and employment law in depth

- o Introduction to Labor and Employment Law historical development of labor and employment law in America nature of the employment relationship
- o Labor-Management Relations in the Union Setting how labor law regulates labor-management relations methods of selecting collective bargaining representatives unfair labor practices by employers and unions economic weapons in labor disputes the formation and administration of labor contracts
- o Employment Discrimination various

forms of employment discrimination in American law methods and procedures of pursuing employment discrimination claims Chapter pedagogy o marginal definitions o fact scenarios illustrating the concepts Sentencing Law and Policy: Cases, Statutes, and Guidelines, Fifth Edition Practice makes perfect! Friedman's Practice Series helps you develop the skills for spotting issues and preparing A+ answers for your next exam. Real laws school exams test your knowledge of the key concepts and rules with a collection of essay and multiple-choice questions. Set up to mirror actual exams, the series features long essay questions as well as some that are relatively short and medium-length, giving you great practice in the length and variation of questions on the final. Friedman's is one of the only series to fully emulate complete essay examinations – they are as close to actual exam-questions that you can find. And as Friedman's texts are compiled by professors who wrote the exams, you get sound advice as well as keen insight on what instructors look for in grading your answers. Friedman's Practice Series titles test your knowledge with real law school exams. Test your knowledge of key concepts and rules with comprehensive essay and multiple-choice questions. Practice questions of various length prepare you for any exam. Experience actual exams! Get sound advice from the professors who wrote the exams. Find insight into what professors look for when grading. Most law students have never had formal coursework in accounting or finance, yet these areas are integral to so many law school courses including: Business Associations, Securities Regulations, Corporate Finance, Taxation, Banking Law,

Financial Regulation, and Business Planning. With math no more difficult than high school algebra, *Essential Concepts of Business for Lawyers, Third Edition* fills in those gaps with an accessible and interactive presentation of accounting, finance, and financial markets. Each stand-alone chapter provides a complete lesson that will shed light on business courses in law school, as well as business situations in legal practice. New to the Third Edition: Updates for and addition of new cases that illustrate the business concepts Addition of more examples, including information related to more companies such as Google and Uber Addition of new materials on the basic microeconomic concept of supply and demand Professors and students will benefit from: A self-contained course book that supports a 2-credit course on an overview of business concepts, including accounting, finance, valuation, financial instruments, and business strategy Lessons that go beyond the definitions of terms of art and business terminology A book written at an accessible level Edited appellate cases that connect business concepts to the law and legal practice Knowledge of the basic and most essential concepts of business Materials presented in an accessible way including the use of many examples to illustrate difficult concepts Clear explanations of difficult materials and foreign concepts The Second Edition of California Performance Test Workbook contains everything needed to pass the performance test portion of the California Bar Exam, which is essential since the performance test score counts double. The book provides an innovative step-by-step strategic general approach for organizing and writing

passing performance test answers within 90 minute timed conditions. The authors also provide specific page-by-page deconstructions with guidance and commentary on real released California Performance Test practice questions, along with corresponding answer grids, annotated sample passing answers, and released passing answers. New to the Second Edition: Updated 90-minute style performance exams New innovative performance test approaches with step-by-step instructions All performance test examples with page by page annotations An extra practice appendix provides additional practice for the more challenging components of the performance test Professors and students will benefit from: Options for how to organize a performance test based on different learning styles A step by step approach with target time goals for each component of the test Sample performance tests with step-by-step deconstructions, answer grids, annotated sample passing answers and released passing answers Examples of a variety of different task memos and sample libraries so students get extra practice on essential skills including sample task memos with corresponding organizational analysis, and sample libraries with corresponding book briefs and rule deconstructions Jesse Dukeminier's trademark wit, passion, and human interest perspective has made Property, now in its Ninth Edition, one of the best—and best loved—casebooks of all time. A unique blend of authority and good humor, you'll find a rich visual design, compelling cases, and timely coverage of contemporary issues. In the Ninth Edition, the authors have created a thoughtful and thorough revision, true to the spirit

of the classic Property text. Key Benefits: A new chapter on the Intellectual Property/Property relationship, that gives students a taste of patent law, copyright law, trademark law, and trade secrets law. The chapter highlights the differences and similarities among the legal treatment of real, chattel, and intellectual property. A dynamic, two-color designed casebook that encompasses cases, text, questions, problems, examples and numerous photographs and diagrams. Extended coverage of major recent Supreme Court decisions, including *Murr v. Wisconsin*, *Horne v. Department of Agriculture*, and *Marvin M. Brandt Revocable Trust v. United States*. FEDERAL RULES OF CIVIL PROCEDURE: W/ADVISORY COMMITTEE NOTES 2022 Succinct and timely, Patent Law, Sixth Edition demystifies its subject as it explores and explains important cases, judicial authorities, statutes, and policy. Approachably written for law students, attorneys, inventors, and laypersons alike, this text stands on its own and may be used alongside any patent or IP casebook to support more in-depth study of patent law. New to the Sixth Edition: Coverage of the Supreme Court's ongoing, intensive scrutiny of the America Invents Act (AIA), the most significant change to U.S. patent law in 70 years, including: *Helsinn* (definition of prior art under the AIA) *Cuozzo* (non-reviewability of institution decisions) *Oil States* (Constitutionality of AIA) *SAS Institute* (rejecting partial institution) *Return Mail* (federal government not a "person" entitled to post-grant review) *Dex Media* (cert. granted, reviewability of Board's time-bar decisions) The burgeoning landscape of patent-eligibility

jurisprudence under 35 U.S.C. §101, including Federal Circuit decisions in: Vanda, Cleveland Clinic, Genetic Techs., Endo, Athena Diagnostics (laws of nature) Enfish; Thales Visionix (abstract ideas) Berkheimer, Aatrix, Cellspin (role of fact questions in the Mayo/Alice Step Two “inventiveness” inquiry) Disparate viewpoints for analyzing the bedrock requirement of nonobviousness, including the Federal Circuit’s first en banc obviousness decision in thirty years: Apple v. Samsung The continued vitality of infringement under the doctrine of equivalents, as illustrated in a spate of Federal Circuit decisions including: Lilly v. Hospira Supreme Court decisions examining patent infringement remedies, including: WesternGeco (offshore lost profits) NantKwest (cert. granted, attorney fee-shifting in §145 civil actions) Supreme Court decisions cabin long-standing defenses to patent infringement, including: Impression Products (patent exhaustion) SCA Hygiene (laches and equitable estoppel) Professors and students will benefit from: Thorough coverage and clear writing that clarifies principal legal doctrines, key judicial authorities, governing statutes, and policy considerations for obtaining, enforcing, and challenging a U.S. patent In-depth treatment and comparison of pre- and post-America Invents Act regimes for novelty and prior art with numerous hypotheticals Timely statistics on patent trends Succinct analysis of multi-national patent protection regimes Helpful visual aids, such as figures, tables, and timelines A sample patent and breakdown of a prosecution history Boldfaced key terms and a convenient Glossary

Comprehensive Criminal Procedure, 2021 Case Supplement CONSTITUTIONAL LAW 2022 CASE SUPPLEMENT Buy a new version of this Connected Casebook and receive ACCESS to the online e-book, practice questions from your favorite study aids, and an outline tool on CasebookConnect, the all in one learning solution for law school students. CasebookConnect offers you what you need most to be successful in your law school classes – portability, meaningful feedback, and greater efficiency. With lightly-edited cases, both classic and contemporary, and engaging hypothetical problems, the sixth edition of Civil Procedure: Cases and Problems promotes the analysis and understanding of both governing procedural rules and underlying doctrinal complexities. The casebook also emphasizes the social and economic contexts animating modern procedural problems and reforms as well as the constitutional dynamics underlying federal jurisdiction.

CasebookConnect features: ONLINE E-BOOK Law school comes with a lot of reading, so access your enhanced e-book anytime, anywhere to keep up with your coursework. Highlight, take notes in the margins, and search the full text to quickly find coverage of legal topics. PRACTICE QUESTIONS Quiz yourself before class and prep for your exam in the Study Center. Practice questions from Examples & Explanations, Emanuel Law Outlines, Emanuel Law in a Flash flashcards, and other best-selling study aid series help you study for exams while tracking your strengths and weaknesses to help optimize your study time. OUTLINE TOOL Most professors will tell you that starting your outline early is

key to being successful in your law school classes. The Outline Tool automatically populates your notes and highlights from the e-book into an editable format to accelerate your outline creation and increase study time later in the semester. Property Law is available for purchase in the traditional hardcover format or in the new Connected Casebook format. Choose the Connected Casebook to get a hardcover casebook on loan* for the entire course, PLUS lifelong access to CasebookConnect, which includes the digital casebook, outlining tool, and interactive study center. Learn more at www.aspenlaw.com/connected. A concise edition of the legendary casebook, Property: Concise Edition is perfectly suited for use in a four-credit course. Jesse Dukeminier's trademark wit, passion, and human interest perspective has made Property, now in its Eighth Edition, one of the best--and best loved--casebooks of all time. A unique blend of authority and good humor, you'll find a moveable feast of visual interest, compelling cases, and timely coverage of contemporary issues Features: Substantially shorter than most Property casebooks. The shortened number of pages does not come at the expense of coverage, which remains the same as in the parent book. The Notes have been substantially reduced, and the number of cases has been reduced, all without sacrificing coverage or rigor. Two-color design featuring photographs and diagrams Pull-out Sidebar features including "In Brief," "A Look Back," and "The Rest of the Story..." that aid in student learning, making the book very user-friendly. Increased use of diagrams and graphics to

illustrate transactions and doctrines. New cases and new photos that differ from what was in the 7th Edition of Dukeminier: Property. The First Amendment Torts: Cases and Materials, Fourth Edition is a casebook that engages students without avoiding the hard questions. Modeled on the venerable Prosser casebook, but intended to be modern, accessible, and yet sophisticated, this book consistently gets high marks from students for being clear, user-friendly, and not hiding-the-ball like so many other casebooks. Challenging hypotheticals and authors' dialogues engage students while allowing instructors to probe more deeply into ambiguous or developing areas of law. The book's manageable length makes it an ideal for a three- to four-hour introductory Torts course. Administrative Law: A Casebook, Tenth Edition Wills, Trusts, and Estates: Essential Tools for the New York Paralegal provides students everything they need to handle an estate from beginning to end, including basic terminology, intestate administration, probate proceedings, litigation, jurisdiction and venue, fiduciary duties and responsibilities, trusts, and tax considerations. This complete text focuses specifically on New York practice and eliminates the need for other supplements. Enhanced by the author's extensive practice experience and her realistic examples, this text provides: State-specific rules, forms, and reference sources, including a complete appendix of forms In-depth instruction in paralegal tasks and skills at each stage of administration, estate planning, and litigation Paralegal resources such as software, books, websites, and other tools for the New York paralegal in the final chapter A separate

chapter devoted to the ethical issues paralegals encounter Case synopses and chapter pedagogy that help students understand, practice, and retain material. Pedagogy includes charts and diagrams, key terms, ethical points, topic sidebars, highlighted examples, and review exercises. Current decisions that highlight points of law and statutory applications , thereby bringing a sense of reality to the material New to the Third Edition: Case law has been updated throughout Discussions of new statutes have been added A timely new section on the status of same-sex spouses in New York has been added Written specifically with students in mind by an experienced practitioner, Wills, Trusts, and Estates: Essential Tools for the New York Paralegal, Third Edition, offers all of the tools students need to deal with administration, estate planning, and litigation in the real world. Islamic Law in Modern Courts provides an easily accessible introduction to Islamic law written specifically for law students and legal professionals, and designed to be taught not only by Islamic law specialists, but also by those working in related fields such as law and religion or comparative legal systems. Framed as a casebook, the text uses translations of judicial decisions involving real-world legal disputes to present a picture of Islamic law as it is actually applied in the contemporary world. The casebook draws on material from a variety of countries but focuses primarily on two jurisdictions. Cases from Indonesia exemplify the law of the majority Sunni branch of Islam, while cases from Iraq reflect the influence of both Sunni and Shi'a law. The casebook begins with a brief introduction to the religion of

Islam and the sources, methods, and historical development of Islamic law. Four substantive law chapters cover the main subjects over which Islamic law continues to exert significant influence. These include inheritance law, the law of marriage and divorce, Islamic finance and charitable foundations, and Islamic criminal law. A final chapter examines constitutional adjudication of issues related to Islamic law. Key Features: Examines Islamic law as state law that is enforced by national courts but with roots in and ongoing connections with the rich classical tradition. Designed for use by both experts in Islamic law as well as faculty who have an interest in Islamic law but lack extensive background in the subject. Cases are accompanied by commentary that explains and situates the doctrine applied in the decision and suggests questions for classroom discussion. The five substantive law chapters are self-contained units that permit instructors to design a course that focuses on subject areas of particular interest. A contemporary, easy-to-teach text by high-profile authors, this casebook invites students and teachers to re-imagine the field of Insurance Law. The authors demonstrates the big-picture role of insurance law and policy in American business and society, exploring federal-state regulatory roles in depth as well as the traditional topics covered in casebooks. Insurance Law and Policy: Cases and Materials uses more statutory material than any other casebook, with statutes typically presented through problems. Manageable assignments contain one major case followed by informative notes, questions and a problem. PROCESSES CONSTITUTIONAL

DECISIONMAKING: CASE MATERIAL 2022 SUPP CRIM PRO: CASE & STAT SUPP - 2022 Federal and California Evidence Rules: With Notes, Comments, Selected Legislative History, and Comparative Commentary, 2020–2021 Edition The purchase of this ebook edition does not entitle you to receive access to the Connected eBook on CasebookConnect. You will need to purchase a new print book to get access to the full experience including: lifetime access to the online ebook with highlight, annotation, and search capabilities, plus an outline tool and other helpful resources. Gender and Law: Theory, Doctrine, Commentary, Eighth Edition is organized around theoretical frameworks, showing different conceptualizations of equality and justice and their impact on concrete legal problems. The text provides complete, up-to-date coverage of conventional “women and the law” issues, including employment law and affirmative action, reproductive rights, LGBTQ issues, domestic violence, rape, pornography, international women’s rights, and global trafficking. Showing the complex ways in which gender permeates the law, the text also explores the gender aspects of subject matters less commonly associated with gender, such as property, ethics, contracts, sports, and civil procedure. Throughout, the materials allow an emphasis on alternative approaches and how these approaches make a difference. Excerpted legal cases, statutes, and law review articles form an ongoing dialogue within the book to stimulate thought and discussion and almost 250 provocative “putting theory into practice” problems challenge students to think deeply about current gender law issues. New to the

Eighth Edition: The book now begins with an introductory chapter that previews the five major theoretical frameworks that shape the book: Formal Equality, Substantive Equality, Difference, Non-subordination, and Autonomy. It also introduces three critical perspectives that interrelate and enrich the study of gender—queer theory, intersectionality analysis, and masculinity theory. By introducing these critiques and adjacent theories from the outset, later chapters can integrate and build on these interrelations in specific areas of coverage. Putting Theory into Practice problems that pose cutting-edge, current issues are included throughout each chapter. Updated and more sustained attention to gender identity and non-binary identities throughout the book. Materials raising questions and critique about the intersection of race and gender are covered in greater depth. Materials and questions about masculinity as an aspect of gender are now integrated throughout the book instead of being covered discretely in a single chapter. Expanded coverage of the ERA and the renewed efforts to secure ratification. Materials on gender equity in the legal profession have been updated and new coverage has been added on women in leadership, including women in politics. The materials on public accommodations discrimination now include *Masterpiece Cakeshop v. Colorado Civil Rights Comm'n* as a principal case. An extensively revised and comprehensive teacher's manual includes references to additional materials and updated suggestions of audio and video clips from films, documentaries, news programs, and television and radio series for the book's main substantive topics. NATIONAL SECURITY

LAW AND COUNTERTERRORISM LAW 2022-2023 SUPPLEMENT From the same authorship team behind the highly successful Constitutional Law and among the leading casebooks in the field, *The First Amendment* provides a comprehensive and accessible review of speech and religion jurisprudence under the First Amendment. The eminent authorship team, whose members are distinguished both in teaching and scholarship, combines textual, historical, theoretical, and doctrinal approaches in an inclusive and creative survey of the essential elements of modern First Amendment doctrine. It has been completely updated to incorporate recent developments in the field, including campaign finance and government speech, and provides a broader discussion of modern First Amendment issues, including those related to modern technology. New to the Sixth Edition: New coverage relating to: Issues of free speech on campus, extremist speech and online terrorism, hate speech, and issues of “fake news”. New material on cases including: *Iancu v. Brunetti* and *Matal v. Tam* Masterpiece Cakeshop v. Colorado Civil Rights Commission National Institute of Family and Life Advocates v. Becerra Substantial discussion of *Trump v. Hawaii* and the *Bladensburg* cross case Reorganization of the presentation of the role of impermissible purposes in Establishment Clause jurisprudence, in light of the (near) elimination of the *Lemon* test Professors and students will benefit from: Rigorous questions in the Notes Carefully selected and challenging excerpts from articles and books by leading First Amendment scholars Thoughtful organization of topics and cases designed to

challenge students and to illuminate the evolution and current state of First Amendment jurisprudence
