Real Elves Don't Make Cookies. If there is one thing Gwendolyn Fox hates more than sunlight and stakes, it's elves. There's a good reason why vampires and elves avoid one another; it's because they don't mix well. Hunter is an elf, but like none she's ever met. Rugged and mischievous, Hunter sparks an immediate reaction in Gwen that she struggles to resist. Try as she might to keep her concentration on the missing girl, Gwen falls victim to Hunter's devilish charm and seductive nature. He's tall, dark, and dangerous. He's everything she never expected of an elf and everything she's attracted to in a man. An expert on breaking and entering, Hunter has the means to get Gwen into the facility where the child is being held. During their encounters with otherworldly villains, the magnetism between them becomes too much to be ignored. Despite her instant attraction, Gwen is determined to keep things between herself and Hunter completely professional. Hunter, on the other hand, is determined to seduce his stubborn and guarded vampire partner. Together, they'll strive to rescue the imprisoned girl and save the local supernatural community from a vicious werewolf pack. But to do that, Gwen needs to stop Hunter from distracting her. She must find a way to cool her sizzling partner, or be consumed by the flames. About the Author: Melissa Hosack Melissa Hosack lives near Pittsburgh, Pennsylvania with her

It's the fight everyone's been waiting for—Hisoka versus Chrollo! With both combatants armed with incredible powers, it's a thrilling battle that defies the imagination! Find out which of these two titans wins! -- VIZ Media "Gets it all in: the boozing and drugging...but also the intelligence, the loyalty, the inherent decency." —Jonathan Yardley, Washington Post Hunter S. Thompson detonated a two-ton bomb under the staid field of journalism with his magazine pieces and revelatory Fear and Loathing in Las Vegas. In Outlaw Journalist, the famous inventor of Gonzo journalism is portrayed as never before. Through in-depth interviews with Thompson's associates, William McKeen gets behind the drinking and the drugs to show the man and the writer—one who was happy to be considered an outlaw and for whom the calling of journalism was life. Krzizanovskij summed himself up in one of his notebooks: "I am known for being unknown." Yet he was an authority on Shakespeare and Shaw, a noted scholar, and the author of very popular dystopian and phantasmagoria short stories. Rosenflanz examines the life and work of this Russian modernist, whose imagination used the Russian formalism and futurism then current in new and rich ways, whose skill with the pun rose even to the aural level, and whose life's goal was to resurrect the idea of word as thing in all its permutations: as words, as things, as things-words, and as words-things, even unto words as prophecy, which Rosenflanz interprets as "recollections of the future." Krzizanovskij's being known for being unknown is perhaps rooted in the fact that he was so far ahead that others could not recognize him as leading the charge. Exploring a hitherto unexamined aspect of San cosmology, Mathias Guenther's two volumes on human-animal relations in San cosmology link "new Animism" with Khoisan Studies, providing valuable insights for Khoisan Studies and San culture, but also for anthropological theory, relational ontology, folklorists, historians, literary critics and art historians. In Volume I, therianthropes and transformations, two manifestations of ontological mutability that are conceptually and phenomenologically linked, are contextualized in broader San myth. Guenther explores the pervasiveness of human-animal hybridity and transformation in San expressive culture (myth, stories and storytelling, ludic dancing and art, ancestral rock art and contemporary easel art), ritual (trance dance curing, female and male rites of passage) and hunting. Transformation is shown to be experienced by humans, particularly via rituals and dancing that evoke animal identity mergers, but also by hunters who may engage with their prey animals in terms of sympathy and inter-subjectivity, particularly through the use of "hunting medicines." Academic Paper from the year 2018 in the subject Law - Miscellaneous, grade: A, , course: MASTER OF LAWS IN OIL AND GAS, language: English, abstract: Generally, in simple terms, it is agreed that disputes subjected to neutral parties for determination must come to an end. It is also the position of the law that a dispute between parties, once determined by a competent neutral party, shall not resurface before another neutral party between the same disputing parties and on the same issues or cause of action as the case may be except where an appeal or application to the same court level or higher court is allowed by law. The law calls this res judicata. In International Arbitration the principle is not any different except that it is developed to fit the transnational nature of disputes. Exploring a hitherto unexamined aspect of San cosmology, Mathias Guenther's two volumes on human-animal relations in San cosmology link "new Animism" with Khoisan Studies, providing valuable insights for Khoisan Studies and San culture, but also for anthropological theory, relational ontology, folklorists, historians, literary critics and art historians. Building from the examinations of San myth and contemporary culture in Volume I, Volume II considers the experiential implications of a cosmology in which ontological mutability—ambiguity and inconstancy—hold sway. As he considers how people experience ontological mutability and deal with profound identity issues mentally and affectively, Guenther explores three primary areas: general receptiveness to ontological ambiguity; the impact of the experience of transformation (both virtual/vicarious and actual/direct); and the intersection of the mythic, spirit world with reality. Through a comparative consideration of animistic cosmology amongst the San, Bantu-speakers and the Inuit of Canada's eastern Arctic, alongside a discussion of animistic currents in Western humanities and ethology, Guenther clearly paints the relative strengths and weaknesses of New Animism discourse, particularly in relation to San ontology and cosmology, but with overarching relevance.
