E-Book basiert auf: 19. Auflage 2018 Wer das erste Mal mitten in der Nacht aus der U-Bahn steigt und auf den Times Square tritt, dem steht nicht selten die Verwirrung ins Gesicht geschrieben: Viele Millionen Watt für Neonbeleuchtung und digitale Berieselung tauchen den berühmten Platz in ein Licht wie in der grellsten Mittagssonne. Die angrenzenden 40 Traditionshäuser des Theaterbezirks entlang des Broadway halten noch immer, was das Funkeln ihrer Fassaden verspricht: Ein Theater- oder Musicalbesuch ist mehr denn je eines der klassischen New-York-Erlebnisse. Wer wiederum von Manhattan kommend an der Bedford Street, der ersten Station auf der anderen Seite des East River, aus der U-Bahn-Station steigt, merkt sofort, dass hier etwas anders ist. Das Tempo ist langsamer, weniger hektisch und die städtebaulichen Dimensionen sind überschaubarer. Die Shops und die Cafés und auch die Menschen in Brooklyn sind extravaganter, cooler, stylisher. Am besten ist dieser Querdenker-Geist in der »Brooklyn Bowl« zu spüren . Nicht unbedingt augenscheinliche, vielmehr magische Momente stehen beim neuen Baedeker im Fokus. Der älteste und berühmteste New Yorker Diner – »Eisenberg's Sandwich Shop« an der Fifth Avenue Ecke 22nd Street – scheint prädestiniert zu sein für derartiges Erleben: Herrlich, diese gepolsterten Sitzbänke, auf denen sich die Leute aus der Nachbarschaft treffen und für ein paar Dollar endlos Kaffee schlürfen – setzen Sie sich einfach dazu!

Serving the Main Cities of the World by Taxi and by Limousine Apr 22 2022

Taxi, Limousine, and Transport Network Company Regulation Jun 24 2022 The vehicle for hire (VFH) market - broadly comprising taxis, limousines, and app-based transport - has faced multiple and significant changes over the years, with the period since 2010 a time of major upheaval. This book documents the development of the market over time, examining its regulation and control structures, exploring its history, trends and market theories, and discussing how these are both promoted and challenged by the changes affecting the sector. The book reviews recent developments in the VFH industry, from the influx of new market entrants and the emergence of app-based services to their widespread use, comparing international markets and their regulation, and draws on a series of case studies in key locations in North America, Europe and Asia. It establishes and details economic, market, social and political theory affecting the VFH industry, and devotes its second half to the definition and emergence of transport typologies and markets in which the sector has a role (or potential role). The book concludes, from a neutral standpoint, on the balance between market participants, addressing the immediate future facing the industry, including the impacts of Covid and other external factors. It considers the short- and long-term effects of market change, the role played by regulators and the market conditions imposed upon them. Written for industry practitioners - both suppliers and regulators - as well as the academic community, this book will inform the community and prompt further analysis of a significant and growing field in transportation.
