A collection of investigations into strange and mysterious phenomena from around the world • Explores ancient and modern sacred sites, places of power, natural wonders, altered states, UFO encounters, and the afterlife • Investigates sites and phenomena in Egypt, China, Ireland, and throughout North America, including Oak Island, Florida's Coral Castle,

Wisconsin's UFO hot-spot, and giant-built constructions in Illinois • Examines the forgotten or suppressed work of extraordinary personalities, including Jules Verne, Sir Francis Bacon, and the real-life Indiana Jones, Count Byron de Prorok

Sharing his personal investigations into a wide range of ancient mysteries and paranormal enigmas in America and abroad, Frank Joseph takes us on a journey into the high strangeness of our world. Beginning with the work of the master builders of antiquity, the author examines Old World connections with New World sacred centers, such as the similarities between Ohio's Mound City and the pyramids and tombs of the Giza Plateau, as well as ancient American cities of the Sun, China's Great Pyramid, and the possibility of a Templar treasure on Oak Island. He explores modern sacred sites, such as Iowa's Grotto of Gems, Tennessee's Greek Temple of the goddess Athena, and Florida's Coral Castle. He investigates pre-Columbian sites and underwater pyramids in the Midwest, Wisconsin's UFO hot-spot, lost Aztec Cities of Gold in Kansas, and giant-built constructions in Illinois. He details how the intriguing acoustics of Newgrange in Ireland are echoed in its spiral carvings. Exploring spiritual uses of altered states, he looks at the practices of Minoan snake handlers, Mayan shamans, and prophets through the ages. Providing his own investigations into classic paranormal phenomena and ancient mysteries, the author also examines evidence of the Bermuda Triangle, Atlantis, and the Ark of the Covenant. He explores the forgotten or suppressed work of some of history's most extraordinary personalities, including Jules Verne, Sir Francis Bacon, Mother Shipton, and the real-life inspiration for Indiana Jones, Count Byron de Prorok. He investigates wonders of our natural world, including communication with elemental beings, the numinous secrets of water, and the living soul of matter. Frank Joseph investigates these phenomena not to explain them away, but to expose their power to affect and elevate human consciousness. Imagine the following scene: Eric Schliemann having to get the permission of scientists, telling them that, based on Homer's descriptions, he believes he can discover the mythical Troy. Besides laughing their hearts out, do you believe there would even be the slightest chance for Schliemann to have gotten their permission? And it is not just Troy nor just Knossos nor just the Mycenae, most major archaeological findings in the entire world, despite the references in the ancient texts, were a complete surprise for the scientific establishment. If that establishment had full control, all those discoveries would simply never have happened. The main purpose of this book is to present evidence supporting the theory of a relatively advanced civilization during prehistory, which was however lost due to some natural catastrophe. This is mainly attempted by presenting knowledge of the ancient people which they are not justified to have had and similarities between very distant cultures which should not have existed. How advanced was that civilization? I would say somewhat more

advanced than that of Europe during the 18th century AC. Secondly, but no less important, there are the following goals: *To reveal the huge danger our civilization faces from cosmic impacts and help realize how much more frequent natural catastrophes are than we think. *To shoot down the theories regarding Indo-Europeans & foreign invaders in the area of Greece, proving that the Greeks have preserved knowledge from events that happened in this area many thousand years before their time. *To show that mythology hides within itself big doses of historical truth as it describes real events, although often distorted by the human imagination. And this truth may be of great help to the work of science in the investigation of the unknown aspects of our past. *To trouble the reader on how much we really differ from men of past eras, even from other human species, contrary to the common belief that we are vastly "superior". *To arouse the reader's interest in the ancient mysteries which spread like a fog over the history of the human civilization. Science after all accepts that large-scale catastrophes often occur while man walked the earth, so is it really unlikely for the human civilization to have had a set-back at least once in the past? On the contrary I would say, it is probably the normal thing. In a smaller scale than the one proposed here, there have been many set-backs in the human civilization, like the domination of the Romans (when the Hellenistic Age collapsed), the collapse of the Romans themselves later on, the rise of Islam, and more. The funny part is that science accepts the Indo-European theory, meaning that there was an Indo-European / Arian race which started travelling around the world during prehistoric times spreading civilization, but left no single trace behind before mysteriously disappearing. But how far is the Indo-European theory from that of a lost civilization? Not much, as one difference is the time period and the other one is the geographical area (the present theory presupposes the crossing of the ocean). So how reasonable is it for one theory to be officially adopted by science and the other to be out of the question? We are used to rejecting anything opposed to the established views, but during the course of human history all the great pioneers did exactly that: challenged the status quo.

Treasure of the Jaguar Warrior

Presented here is an accurate picture of the current status of investigations into ancient mysteries. This book situates Tarot in its ancient roots, with particular emphasis on the tradition of the Mystery Schools. The suites are designated as "Earth, Water, Air and Fire" rather than the conventional Pentacles, Cups, Swords and Wands. The first part of the book is a review of the ancient sources of Tarot and the dynamics of the archetypes, with

interesting sidelights on the author's personal experiences in this realm. The reader is instructed by The Magician, The Priestess and The Hermit about the meanings and wisdom of Tarot, which he discovers to be a "Book of Truth." This is a new release of the original 1932 edition. In this landmark series of lectures, Rudolf Steiner challenges the notion that human consciousness has in essence remained the same throughout history. On the contrary, we can only see the past in its true light when we study the differences in human souls during the various historical eras. Consciousness, he says, evolves constantly and we can only comprehend the present by understanding its origin in the past. Delivered in the evenings during the course of the 'mystery act' of the Christmas Foundation Meeting – when Rudolf Steiner not only re-founded the Anthroposophical Society but for the first time took a formal role within it – these lectures study world history in parallel with the ancient mysteries of initiation, showing how they are intimately linked. Steiner describes consciousness in the ancient East and follows the initiation principle from Babylonia to Greece, up to its influences in present-day spiritual life. He also discusses Gilgamesh and Eabani, the mysteries of Ephesus and Hibernia, and the occult relationship between the destruction by fire of the Temple of Artemis and the burning of the first Goetheanum in Dornach, Switzerland. Published for the first time with colour plates of Steiner's blackboard drawings, the freshly-revised text is complemented with an introduction, notes and appendices by Professor Frederick Amrine and an index. Gathers selections from Greek and Roman history, plays, and poetry that refer to the mystery religions, and briefly explains what is known about how these religions got their start. Hone's summaries and excerpts from medieval Coventry plays or mysteries in the British Museum. Presents unsolved mysteries from the pre-Christian era of the ancient world, including the statues on Easter Island, the mound builders, and the Nazcan Plain. Scientists and archaeologists have written thousands of books about these sites. While this information is crucial to our knowledge today, much of the mystery about these places remains unsolved and questions surrounding their purpose have lingered throughout the centuries. "Spirit Traveler", the companion book to the documentary film with the same title, offers a completely different perspective on why these sites were erected and what purpose they served. Only Sonja Grace, the internationally known mystic healer, is able to reveal the secrets of these ancient buildings in this new and fascinating way. Sonja is a Spirit Traveler deeply devoted to the protection of our beautiful Earth. She has spent a lifetime working in the ethers with angels and guides. She sheds light on what the people and cultures of the past were doing at these sites and why, offering a brand new understanding of the events that took place there centuries ago. Sonja Grace brings her unique understanding of the truth to history. In Spirit Traveler, Sonja travels back through the realms to reveal history as it happened. She answers the questions that have puzzled historians and archaeologists for hundreds of years: What was the purpose of Stonehenge? How were the Great Pyramids built, and why is their particular geometry so significant? Why was Skellig Rock so important to the monks? Have our beliefs about these great sites been wrong all along? Is their importance something other than what we have always thought? Sonja Grace's discoveries shine a whole new light on our historical understanding of these places and on their relationships to the Earth. Sonja Grace aims to bring a new spiritual truth to these questions and fulfill her purpose in the awakening of humanity. Spirit Traveler is a purposefully structured book. Sonja discusses eight specific historical sites: Skellig Michael (Ireland) Tiwanaku - The Gate of the Sun (Bolivia) Stonehenge (England) Hagar Qim (Malta) St. Winifride's Well (Wales) Chichen Itza and Temple of Kukulcan (Mexico) The Great Khafre Pyramids (Egypt) the Rock of Cashel (Ireland). Each chapter tackles the scientific and historical information available about each site up to this point in time. Sonja addresses the questions that continue to puzzle archaeologists and historians. The second half of each chapter is devoted to Sonja's Spirit Traveler' experience, what she learned, and the answers to some of those longstanding questions. Few people possess the gifts of Sonja Grace. Her heritage (part Native American, part Norwegian) provides her with the extraordinary ability to transport anywhere. She sees, hears, smells and feels the places she visits. In Spirit Traveler, Sonja shares every single detail of her

riveting travels through space and time. Her work is marked by her distinct understanding of the dimensions and realms along with the convergence of Divine and Earth energies, which allows her to travel through the ethers and gather historic information. Delve into Ancient Mysteries with Some of Freemasonry's Most Guarded Secrets The Holy Grail. The medieval stories of Merlin. The ancient Greek Mysteries. Discover the connection between them all with this phenomenal book by 32nd-degree Freemason and celebrated author John Michael Greer. He uses careful research to fit together seemingly unrelated traditions and topics, drawing on translated texts and published documents that, until recently, were jealously guarded. A must-read for anyone interested in occult Freemasonry and the Grail mysteries, this book provides answers that have eluded seekers for centuries. Using the earliest surviving Masonic ritual texts as well as pioneering insights and writings by Jessie Weston, William Morris, and other renowned scholars, this book reconstructs the Grail ritual and provides guidelines for performing it. Greer also presents Freemasonry's origins, full translations of pivotal essays, and fascinating history from megalithic to modern times. The Ceremony of the Grail pieces together a puzzle that has captivated practitioners throughout the ages. Originally published in 1926, this short book focused on the symbolism surrounding the ancient patriarch Melchizedek serves as a concise introduction to important imperceptible truths. "The elaborate rituals of the ancient Mysteries and the simpler ceremonials of modern religious institutions had a common purpose. Both were designed to preserve, by means of symbolic dramas and processions, certain secret and holy processes, by the understanding of which man may more intelligently work out his salvation. The pages which follow will be devoted to an interpretation of some of these allegories according to the doctrine of the ancient seers and sages." The foremost historian of Greek religion provides the first comprehensive, comparative study of a little-known aspect of ancient religious beliefs and practices. Secret mystery cults flourished within the larger culture of the public religion of Greece and Rome for roughly a thousand years. This book is neither a history nor a survey but a comparative phenomenology, concentrating on five major cults. In defining the mysteries and describing their rituals, membership, organization, and dissemination, Walter Burkert displays the remarkable erudition we have come to expect of him; he also shows great sensitivity and sympathy in interpreting the experiences and motivations of the devotees. This book demonstrates conclusively the identity of the solar and lunar rites of the Greeks, Romans and other peoples, ancient and modern, to the rites of Freemasonry and Christianity. '...a complete demonstration of the incorporation of the Solar and Phallic Mysteries in Christianity.' Aleister Crowley This Is A New Release Of The Original 1917 Edition. Excerpt from Traditions Its Freemasonry: And Its Coincidences With the Ancient Mysteries It is recorded of an ancient author, that while apologizing for the imperfections of one of his books, he was interrupted by the inquiry, "Who asked you to write it?" A similar question might be propounded with reference to the following pages; as also, Where was the material obtained? and why is it published? It is proposed briefly to reply to such queries. In a varied and somewhat extensive masonic experience of twenty years and upward, the writer has been in the habit of amplifying the received lectures in explanation of the ceremonies of the different degrees, and in elucidation of the symbols used, in order more fully to comply with the first desire expressed by every Mason whom he has had the honor to initiate. Old and young have frequently urged that some of those explications should be put on paper that they might become accessible to all. The catechetical rituals now in use are meagre and barren, containing no allusion to some truths which are the very foundation of the system - truths which were first taught in, and then preserved by, and disseminated through the mystic associations of men - truths which all men who love God, their country and their fellow-men must appreciate. Among the questions and answers in the old rituals were the following: "What is Freemasonry? The science of sciences. The Holy Scriptures predict end-time catastrophes and global upheaval as foretold in the mysterious scrolls of Daniel and Revelation, and confirmed by Jesus in the Gospel accounts. However, believers through the centuries have wondered, why has there been such a long protracted delay in Messiah's return? How close are we to the appointed time written about by the Hebrew prophets? Are we the last generation? And, how will all the ancient last-day prophecies play out in our modern world? Some of these questions have recently been answered by looking at the prophecies with a set of new eyes. For example, it's commonly taught that Daniel's visions relate mainly to kings, wars and events of history past; therefore, the book has little relevance to modern times. However, the overlapping similarities between Daniel's visions and time periods and the events and timelines in the book of Revelation clearly show they are related. So, by uniting the prophecies of these two books into one, a bold new understanding has been unleashed of just how human history, as we know it, will come to an abrupt end. The prophetic time periods of the two books (490 days; 1,150 days; 1,260 days; 1,290 days and 1,335 days) were first aligned into a chronological chart in 1990, and two years later it was discovered the chart lined up between the Biblical/Jewish Festivals in what is now referred to as The Kingdom Calendar. If accurate, the "appointed times and seasons" counting periods that lead to the end of the age will begin at Purim with a disastrous Jerusalem event that will stop daily worship at the Western Wall and Temple Mount, and the daily counting will continue for over three and one-half years of global turmoil—ending at the Great Tribulation and Armageddon confrontation. The Insights in Prophecy 30 lesson guides will take you step by step through the books of Daniel and Revelation, showing how they relate to one another, and offering you a fresh new perspective on the previously sealed oracles... for "Surely the Sovereign LORD does nothing without revealing His plan to His servants the prophets," (Amos 3:7). You'll discover thought-provoking questions, along with Biblical answers and commentary on the various aspects of God's unfolding plan for the last days leading up to Messiah's return and His Eternal Jubilee. For centuries, philosophers, scientists, and charlatans have attempted to decipher the baffling mysteries of our past, from Stonehenge to the lost continent of Atlantis. Today, however, DNA testing, radiocarbon dating, and other cutting-edge investigative tools, together with a healthy dose of common sense, are guiding us closer to the truth. Now

historian Peter James and archaeologist Nick Thorpe tackle these age-old conundrums, presenting the latest information from the scientific community—and the most startling challenges to traditional explanations of mysteries such as: • The rise and fall of the Maya • A lost cache of Dead Sea Scrolls • The curse of Tutankhamun • The devastation of Sodom and Gomorrah • The Nazca Lines and the Vinland Map • The existence of Robin Hood These true mystery stories twist and turn like a good whodunit, as James and Thorpe present the evidence for and against the expert theories, shedding new light on humankind's age-old struggle to make sense of the past. Ancient Mysteries will entertain and enlighten, delight the curious and inform the serious. This is a compilation of historical accounts that contradict everything we have been taught about ancient America. The accounts are substantiated by the testimony of the Native Americans who lived in the Great Lakes and Ohio Valley regions of North America. American Indians speak of a people who were skilled in arts and engaged in trade whose remains could be found in the burial mounds. These legends are validated by the hundreds of miles of canals extending into the Mississippi River and the extensive copper and lead mines. Early settlers in the Ohio Valley described ancient cities with well-defined evidence of streets laid out at regular intervals and intersected at right angles with other streets. Stone macadamized roads were also evidence of an industrious people engaged in commerce. New information from the British Isles places the Celtic peoples on the Island earlier than previously believed. The Celtic pagan religion is superimposed on ancient sites in the Ohio Valley with indistinguishable characteristics. Ancient ceremonial sites in the Ohio Valley are re-examined under the looking glass of the Celtic Gods and Goddesses. The ancient mound builders practiced a cult of the dead and buried their deceased in burial mounds to act as portals to connect the living with the dead. These portals remain open today and are the gateways for

much of the paranormal activity found in the Great Lakes region. While not the focus of the stories presented, many of the skeletons discovered at the ancient sites were of gigantic size. The connection to the paranormal is elaborated in the Book of Enoch, "And now the Giants, who have been begotten from body and flesh, will be called evil spirits on earth, and their dwelling-places will be upon the earth." New documentation is presented that solves the mystery of who were the Hopewell Mound Builders. The Dakota Sioux legends place them in the Ohio Valley at the time when the great geometric earthworks were being constructed. They were called "The Snake People" by the Algonquins. Identical serpent effigies are found in the historic Dakota lands that overlap the Hopewell interaction sphere. Other Indians tribes concur in their legends that this was true along with age-old place names that corroborate the Dakota Sioux as the builders of the effigy mounds in Minnesota, Wisconsin, Iowa, Ohio and Indiana. Atlantis! The legendary lost continent comes under the close scrutiny of archaeologist David Hatcher Childress. From Ireland to Turkey, Morocco to Eastern Europe, or remote islands of the Mediterranean and Atlantic, Childress takes the reader on an astonishing quest for mankind's past. Ancient technology, cataclysms, megalithic construction, lost civilisations, and devastating wars of the past are all explored in this amazing book. Childress challenges the sceptics and proves that great civilisations not only existed in the past but that the modern world and its problems are reflections of the ancient world of Atlantis. In the early ages occult knowledge was taught openly, as the sciences are taught in our colleges to-day. But in the course of time many allowed their selfishness to rule and so abused their power that it became necessary to withhold such knowledge from the unworthy. This was the condition of religious affairs when the Mysteries were necessarily established by the King-Priests of the Divine Dynasties, in the early days of Atlantis.-from "The Origin of the Mysteries" Though the author cannot, alas, "lift the veil from the secrets of the Order," 32nd-degree Freemason Charles H. Vail endeavors to lead the curious toward a more complete understanding of the ancient knowledge of the eternal truth of the universe of which the Masons are the keepers. From the great antiquity of Masonic symbols and traditions to the formation of the organization with their perpetuation as its goal, this 1909 book is an intriguing glimpse inside one of the most secretive fraternities in existence. It is required reading for those fascinated by arcane wisdom and secret societies. Despite being enmeshed in a culture steeped in technology and science, the magic and mysteries of the ancient world still haunt our imagination. Through their architecture, artifacts, and deeds, ancient cultures speak to us across thousands of dusty years--from the labyrinthine palace of Knossos on Crete and the lofty pyramids of Egypt to the remotest jungle temples of Peru and the megalithic mystery of Stonehenge. HIDDEN HISTORY brings together a fascinating selection of these ancient

enigmas. arranging them into three sections: Mysterious Places, Unexplained Artifacts, and Enigmatic People.
