The Crisis Sep 15 2021 The Crisis, founded by W.E.B. Du Bois as the

official publication of the NAACP, is a journal of civil rights, history, politics, and culture and seeks to educate and challenge its readers about issues that continue to plague African Americans and other communities of color. For nearly 100 years, The Crisis has been the magazine of opinion and thought leaders, decision makers, peacemakers and justice seekers. It has chronicled, informed, educated, entertained and, in many instances, set the economic, political and social agenda for our nation and its multi-ethnic citizens.

African Americans in the U.S. Economy Sep 03 2020 Over the last several decades, academic discourse on racial inequality has focused primarily on political and social issues with significantly less attention on the complex interplay between race and economics. African Americans in the U.S. Economy represents a contribution to recent scholarship that seeks to lessen this imbalance. This book builds upon, and significantly extends, the principles, terminology, and methods of standard economics and black political economy. Influenced by path-breaking studies presented in several scholarly economic journals, this volume is designed to provide a political-economic analysis of the past and present economic status of African Americans. The chapters in this volume represent the work of some of the nation's most distinguished scholars on the various topics presented. The individual chapters cover several well-defined areas, including black employment and unemployment, labor market discrimination, black entrepreneurship, racial economic inequality, urban revitalization, and black economic development. The book is written in a style free of the technical jargon that characterizes most economics textbooks. While the book is methodologically sophisticated, it is accessible to a wide range of students and the general public and will appeal to academicians and practitioners alike.

The Impact of Racism on African American Families Nov 24 2019 In

spite of the existence of statistics and numerical data on various aspects of African American life, including housing, earnings, assets, unemployment, household violence, teen pregnancy and encounters with the criminal justice system, social science literature on how racism affects the everyday interactions of African American families is limited. How does racism come home to and affect African American families? If a father in an African American family is denied employment on the basis of his race or a wife is demeaned at work by racist slurs, how is their family life affected? Given the lack of social science literature responding to these questions, this volume turns to an alternative source in order to address them: literature. Engaging with novels written by African American authors, it explores their rich depictions of African American family life, showing how these can contribute to our sociological knowledge and making the case for the novel as an object and source of social research. As such, it will appeal to scholars and students of the sociology of the family, race and ethnicity, cultural studies and literature.

Shaping the Future of African American Film Aug 14 2021 In Hollywood, we hear, it's all about the money. It's a ready explanation for why so few black films get made—no crossover appeal, no promise of a big payoff. But what if the money itself is color-coded? What if the economics that governs film production is so skewed that no film by, about, or for people of color will ever look like a worthy investment unless it follows specific racial or gender patterns? This, Monica Ndounou shows us, is precisely the case. In a work as revealing about the culture of filmmaking as it is about the distorted economics of African American film, Ndounou clearly traces the insidious connections between history, content, and cash in black films. How does history come into it? Hollywood's reliance on

past performance as a measure of potential success virtually guarantees that historically underrepresented, underfunded, and undersold African American films devalue the future prospects of black films. So the cycle continues as it has for nearly a century. Behind the scenes, the numbers are far from neutral. Analyzing the onscreen narratives and off-screen circumstances behind nearly two thousand films featuring African Americans in leading and supporting roles, including such recent productions as *Bamboozled*, *Beloved*, and Tyler Perry's *Diary of a Mad Black Woman*, Ndounou exposes the cultural and racial constraints that limit not just the production but also the expression and creative freedom of black films. Her wide-ranging analysis reaches into questions of literature, language, speech and dialect, film images and narrative, acting, theater and film business practices, production history and financing, and organizational history. By uncovering the ideology behind profit-driven industry practices that reshape narratives by, about, and for people of color, this provocative work brings to light existing limitations—and possibilities for reworking stories and business practices in theater, literature, and film.

African American Midwifery in the South Apr 29 2020 We call habeas corpus the Great Writ of Liberty. But it was actually a writ of power. In a work based on an unprecedented study of thousands of cases across more than five hundred years, Paul Halliday provides a sweeping revisionist account of the world's most revered legal device. In the decades around 1600, English judges used ideas about royal power to empower themselves to protect the king's subjects. The key was not the prisoner's "'right'" to "'liberty'"—these are modern idioms—but the possible wrongs committed by a jailer or anyone who ordered a prisoner detained. This focus on wrongs gave the writ the force necessary to protect ideas about rights as they developed outside of law. This judicial power carried the writ across the world, from Quebec to Bengal. Paradoxically, the representative impulse,

most often expressed through legislative action, did more to undermine the writ than anything else. And the need to control imperial subjects would increasingly constrain judges. The imperial experience is thus crucial for making sense of the broader sweep of the writ's history and of English law. Halliday's work informed the 2008 U.S. Supreme Court ruling in *Boumediene v. Bush* on prisoners in the Guantánamo detention camps. His eagerly anticipated book is certain to be acclaimed the definitive history of habeas corpus.

Turning Corners Nov 29 2022 How the African-American community has strived for competence in the face of societal hostility is the subject of this dynamic new book. Recognized scholar and psychologist Adelbert H. Jenkins applies a unified psychological point of view to the African-American situation. Jenkins begins with an introduction to the humanistic psychological view and goes on to present discussions of self-concept, cognition, school performance, speech and language processes in children, assertion and identity development in young adults, and the issues related to mental health among blacks. The result is a one-of-a-kind look at the aspects of traditional psychology that can make a contribution to the understanding of the Black experience in America. Highlighting the neglected aspects of general psychological theory that emphasize the human potential for mastery even in the face of adversity, he uses a more positive model to correct the social science image of African Americans. This broadly humanistic and teleological approach to the psychological situation of African Americans looks at people as

"psychological agents" - proactive, potentially competent beings who are able to make a difference in the situations that confront them.

Handbook of Mental Health in African American Youth Mar 29 2020 This handbook fills major gaps in the child and adolescent mental health literature by focusing on the unique challenges and resiliencies of African American youth. It combines a cultural perspective on the needs of the population with best-practice approaches to interventions. Chapters provide expert insights into sociocultural factors that influence mental health, the prevalence of particular disorders among African American adolescents, ethnically salient assessment and diagnostic methods, and the evidence base for specific models. The information presented in this handbook helps bring the field closer to critical goals: increasing access to treatment, preventing misdiagnosis and over hospitalization, and reducing and ending disparities in research and care. Topics featured in this book include: The epidemiology of mental disorders in African American

youth. Culturally relevant diagnosis and assessment of mental illness. Uses of dialectical behavioral therapy and interpersonal therapy. Community approaches to promoting positive mental health and psychosocial well-being. Culturally relevant psychopharmacology. Future directions for the field. The Handbook of Mental Health in African American Youth is a must-have resource for researchers, professors, and graduate students as well as clinicians and related professionals in child and school psychology, public health, family studies, child and adolescent psychiatry, family medicine, and social work.

American Politics and the African American Quest for Universal

Freedom Nov 05 2020 This dynamic and comprehensive text from nationally renowned scholars continues to demonstrate the profound influence African Americans have had -- and continue to have -- on American politics. Through the use of two interrelated themes -- the idea of universal freedom and the concept of minority-majority coalitions -- the text demonstrates how the presence of Africans in the United States affected the founding of the Republic and its political institutions and processes. The authors show that through the quest for their own freedom in the United States, African Americans have universalized and expanded the freedoms of all Americans. New to the Eighth Edition A new co-author, Sherri L. Wallace, is renowned for her teaching, scholarship, and participation in APSA's American government textbook assessment for coverage of race, ethnicity, and gender. She is the perfect addition following an election year that included female presidential candidates as well as candidates of color and issues focusing on racial tension and inequality. Offers a new Media Integration Guide for the first time. Provides the first overall assessment of the Obama administration in relation to domestic and foreign policy and racial politics in particular. Updated through the 2016 elections, connecting the Obama years with the new administration. Looks at candidates Hillary Clinton and Ben Carson in particular in relation to the themes of the book. Adds a new section on State Politics and Elections. Includes new sections on intersectionality dealing with issues of race, gender and sexuality; LGBT issues as another manifestation of the struggle for universal freedom; a discussion of the "Black Lives Matter" movement; and a new section focusing on the changing character of black ethnicity as result of increased immigration from Africa and the Caribbean. Discusses the way in which race contributed to the polarization of American politics; the connections to the Tea Party; and the Obama Presidency and the 2016 presidential campaign as the most polarized since the advent of polling. Previews the impact of the Trump

Administration on matters of race and ethnicity.

African American Culture and Legal Discourse May 31 2020 This work examines the experiences of African Americans under the law and how African American culture has fostered a rich tradition of legal criticism. Moving between novels, music, and visual culture, the essays present race as a significant factor within legal discourse. Essays examine rights and sovereignty, violence and the law, and cultural ownership through the lens of African American culture. The volume argues that law must understand the effects of particular decisions and doctrines on African American life and culture and explores the ways in which African American cultural production has been largely centered on a critique of law.

Survival of the African American Family Oct 28 2022 Jewell critically examines the social policies that arose from the civil rights movement, and the shifting policies of federal administrations from the 1960s onward. In addition, she proposes new steps to economic independence for African American families. Arguing that social policies and their absence have affected the status of African American family structures, Jewell refutes the myths of significant

African American progress that emanated from the civil rights era, including the belief in equity for minorities in societal institutions.

***African-British Writings in the Eighteenth Century* Sep 27 2022 The eighteenth century was a time of great cultural change in Britain. It was a period of exploration, in which adventurers journeyed to the New World, Africa, and the Orient, and these voyages were reflected in contemporary travel literature. It was also a period in which seventeenth-century empiricism and the scientific method became dominant, and in which society became increasingly secular. Fundamental to the eighteenth-century worldview was the prominence of the Great Chain of Being, in which all creatures and their Creator stood in a hierarchical relationship to one another. With voyages to Africa becoming more common, blacks were brought to Britain as slaves. These Africans living in Britain sometimes wrote about their place in society, and Whites debated the place of the black slaves within the hierarchy of the universe. This book examines representations of blacks in British literature to illuminate how society viewed blacks during the eighteenth century. Included are discussions of major canonical writers such as Pope, Swift, and Sterne, along with discussions of works by African-British writers such as James Albert Ukawsaw Gronniosaw, Quobna Ottobah Cugoano, Olaudah Equiano, and Mary Prince.**
